

AccessionIndex: TCD-SCSS-T.20220825.002
Accession Date: 25-Aug-2022
Accession By: Dr.Brian Coghlan
Object name: Nokia Wireless Keyboard
Vintage: 2005
Synopsis: Bluetooth keyboard model SU-8W. S/N: ???

Description:

The SU-8W is a very nice folding Bluetooth 1.1 keyboard (supporting the Human Interface Device profile 1.0) targeted for Symbian smartphones, elegantly shaped in plastic and aluminium, and powered by two AAA batteries that in normal usage last several months. The green Fn indicator is on when green characters can be typed. The blue indicator shows the status of the Bluetooth connection. A power indicator blinks red when the power level of the battery is low and green when the keyboard is switched on. Menu and Messaging keys open the related Apps on a compatible smartphone (it has an ingenious sliding support for the smartphone).

Many thanks to Brian Coghlan for donating this item.
