

AccessionIndex: TCD-SCSS-T.20251022.001

Accession Date: 22-Oct-2025

Accession By: Dr.Brian Coghlan

Object name: TEAC Datapack MT-6

Vintage: 1973

Synopsis: Very professional data cassette deck, includes blank data cassettes. S/N: 000533.

Description:

The TEAC Datapack MT-6 is a magnetic tape memory unit.

From [1]: *“The MT-6 Cassette Digital Data Recorder is one of the newest products from TEAC, and is now leading the data processing field toward increased efficiency and miniaturization. Now in use at 5000 meter below sea level and in thousands of offices around the world, the MT-6 is representative of the new products continually being introduced by TEAC. Another example would be the V-3000 video-Cassette Recorder, or the A-450 Stereo Cassette Deck which outperform many open-reel decks.”*

Many thanks to Brian Coghlan for donating these items.
